

CAT5/ UTP Twisted Pair Cabling Solutions

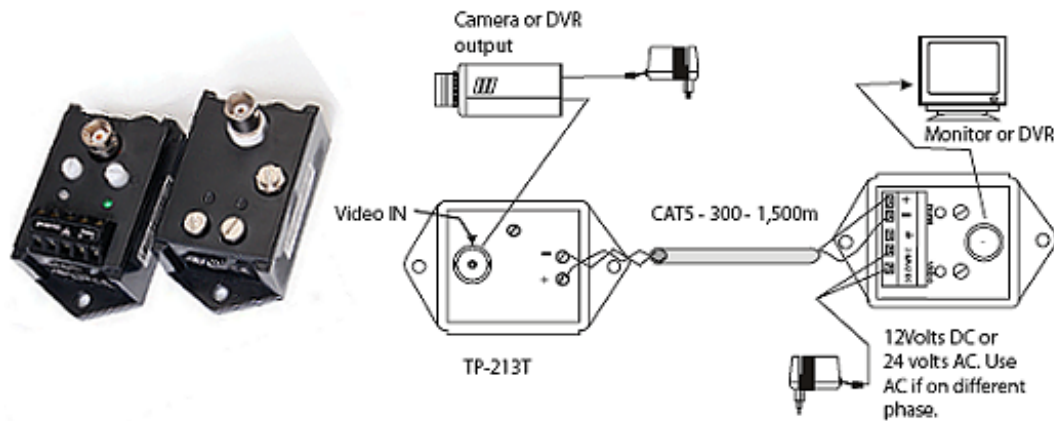

1/ 4 Channel Active Cat5 CCTV Video Baluns

The function of Cat5 Video Baluns is to replace the traditional 75-ohm RG59 coaxial cable with Cat 5 unshielded twisted pair (UTP) cable in CCTV and surveillance Installations and provides a solution for high quality, long distance signal transmission. The Use of powered Active Transmitters and Receivers significantly increases the ranges which are achievable

TC213TX/RX Single Channel Active Cat5 CCTV Balun

Single channel active (powered) KIT with one BNC output and screw terminal for video input. Converts video signal which has been transmitted over CAT5 cable back to coaxial so it can be connected to CCTV multiplexers, DVR's or video monitors. it has ground lifting circuit (ground loop isolation) which makes it ideal for use on 3 phase premises. Maximum working distance up to 1,500 metres for colour.

Unit is matched with a single channel passive (no power required) transmitter balun.

Features:

- Receiver - BNC Output 75Ohm 1v P~P
- Transmitter - BNC Input 75Ohm 1v P~P
- Terminal Connections for CAT5 Cable
- Contrast & Colour Adjustments
- Integrated Transient Voltage Protection
- Integrated Ground Loop Isolation
- Dual Voltage - 12vDC/ 24vAC

TC214RX Four Channel Active Cat5 CCTV Balun

Four channel active (powered) Receiver with four BNC output and screw less terminals & RJ45 Socket for video input. Converts up to four video signals which have been transmitted over CAT5 cable back to coaxial so it they be connected to CCTV DVR's, Matrix Systems or video monitors. The Unit has an Integrated ground lifting circuit (ground loop isolation) which makes it ideal for use on 3 phase premises. Maximum working distance up to 1,200 metres for colour.

12vDC Powered - PSU Not Included.

Features:

- Receiver - 4 x BNC Output 75Ohm 1v P~P
- Terminal Connections for CAT5 Cable
- RJ45 Socket for CAT5 Cable
- Adjustment for each channel.
- Integrated Transient Voltage Protection
- Integrated Ground Loop Isolation
- Dual Voltage - 12vDC/ 24vAC
