New 8 Channel RapidOS Network DVR

Dual Codec 8 Channel Triplex Network DVR with DVD Writer, USB, Integrated VGA & Audio Support

152210076

Great value, cost effective DVR solution for small to medium CCTV applications.

Full Triplex functionality for simultaneous Viewing, Playback, Networking & Backup. The Integrated DVD writer and USB support, ensure quick and easy back up options for the end-user and the straightforward on-screen GUI allows for both quick and easy installation/ setup and day to day operation. Optical Mouse Included.

The Dual Codec system allows quick high quality video streaming across LAN & Internet using MPeg4 compression whilst the quality and integrity of stored footage is assured using MJpeg compression. Both Static and DDNS IP Addressing is supported

All units are supplied with integrated VGA Support and IR Remote Control as standard.

General Features

- ◆ Genuine Triplex Operation
- ◆ Static & DDNS Network Support
- ◆ Integrated DVD Writer
- ◆ USB Support
